Overview

Compact Portable Power Solution

This portable gasoline generator offers a reliable power source designed for versatility and ease of use. Featuring a 2.0HP 2-stroke engine and a 4.2L fuel tank, it provides consistent performance for outdoor activities, emergency backup, or small-scale site operations. The unit is engineered for portability, making it an ideal choice for users needing dependable AC and DC power in various environments.

Engine Performance

Engine Configuration	1-cylinder, 2-stroke, Air-cooled
Max Power Output	2 HP
Displacement	63 cc
Ignition System	C.D.I.
Starting Method	Recoil start

Power Output

AC Power Metrics

950 W

Max AC Output

750 W

Rated AC Output

Voltage & Frequency	220V/110V, 50/60Hz
