

Portable Gasoline Generator

This gasoline generator is compact and efficient, designed for a variety of power applications. It features durable construction and delivers reliable performance, making it ideal for portable power solutions and emergency backup.

Product Overview

Compact Portable Power Solution

This portable gasoline generator is engineered for versatility and reliability across a wide range of power applications. Its durable construction ensures consistent performance, making it an excellent choice for both portable power needs and emergency backup situations. Designed with efficiency in mind, this unit provides a dependable energy source whenever and wherever it is required.

Technical Specifications

Fuel Type

Gasoline

Model Identifier

TU-26

Rated Output

2 kW

Key Features

Ideal Applications

Portable Power, Emergency Backup, Outdoor Use
