

Portable Gasoline Generator

This portable gasoline generator is designed to provide reliable power in various applications. It features a robust engine, a durable frame for protection and portability, and user-friendly controls.

Product Overview

Reliable Portable Power

This portable gasoline generator provides a dependable power solution for various professional and emergency applications. Built with a robust single-cylinder, 4-stroke OHV engine and air-cooling system, it ensures consistent performance on construction sites or as a backup power source. Its durable frame design combines protection with portability, making it an ideal choice for field operations requiring reliable electricity.

Engine Specifications

Engine Type	Single cylinder, 4-stroke, OHV 25°, air cooling
Engine Model	KB170F

Performance Metrics

Key Performance Metrics

3.2 KW Max Output	3 KW Rated Output	60 Hz Frequency
-----------------------------	-----------------------------	---------------------------

Electrical Specifications

Electrical Configuration

Parameter	Value
Rated Voltage	110/220 V
Rated Amperage	27/14 A
Rated Frequency	50/60 Hz

Physical Dimensions

Dimensions & Weight

- Dimensions: 625 x 470 x 535 mm
- Gross Weight: 46 kg
- Net Weight: 44 kg

Logistics

Container Capacity	20GP: 190 units, 40HQ: 430 units
