

Portable Gasoline Generator

This gasoline generator provides a reliable power source suitable for outdoor work and various applications. It features an automatic voltage regulator (AVR) to ensure stable power output and is equipped with both AC and DC outputs.

Overview

Versatile Portable Power

This portable gasoline generator serves as an ideal movable power source for a wide range of professional and emergency applications. Engineered for reliable operation, it features low noise levels and flexible deployment options suitable for medical facilities, communication sites, and outdoor work environments. The unit is designed for convenience, ensuring stable power delivery for both lighting and essential equipment.

Technical Specifications

Safety & Monitoring

- Automatic Voltage Regulator (AVR) for stable output
- Integrated circuit breaker for overload protection
- Built-in voltmeter for real-time monitoring

AC Output Voltage	230 V
DC Output Voltage	12 V
Key Features	AVR Equipped, Circuit Breaker, Voltmeter, Portable Frame, Wheel Kit

Applications

Ideal For

Medical Facilities • Communication Sites • Outdoor Work • Emergency Lighting • Residential Use • Commercial Use
