

Portable Gasoline Generator

This gasoline generator provides a compact and portable power solution for various applications. It features overload protection and easy-to-use controls, making it ideal for emergency power, camping, and outdoor activities.

Overview

Versatile Portable Power

This portable gasoline generator offers a reliable and flexible power solution designed for diverse professional and recreational applications. Engineered for low-noise operation and durability, it serves as an ideal movable power source for field work, emergency lighting, and specialized equipment. The unit provides stable output, with customizable voltage and frequency options available to meet specific operational requirements.

Technical Specifications

AC Output Voltage	220V / 125V
AC Output Current	5.5 A
DC Output	12V 8.3A
Power Rating	1000-300VA

Features

Ideal Applications

- Emergency Power
- Outdoor Working
- Lighting
- Field Electrician Work
- Camping
- Communication Equipment

Key Features

Low Noise, Portable, Overload Protection, Compact Design, Reliable Engine
