

Portable Gasoline Generator

This portable gasoline generator provides electrical power in remote locations and during outages. It includes a recoil start, fuel tank, AVR system, AC outlets, and a protective frame.

Product Overview

Reliable Portable Power

This portable gasoline generator is engineered to provide dependable electrical power for remote locations or emergency backup during power outages. Featuring a robust protective frame, it ensures durability and ease of transport for various job sites or outdoor applications. The unit comes equipped with an integrated Automatic Voltage Regulator (AVR) system to maintain stable power delivery for your connected devices.

Performance Metrics

Maximum Power Output

2 kW

Max Output

Technical Specifications

Electrical Output Details

Parameter	Description
AC Voltage	Standard
DC Voltage	Standard
Phase	Single Phase
Power Factor (Cos)	1.0

Key Features

Recoil Start, AVR System, Voltmeter, Protective Frame
