Overview

Reliable Portable Power Solution

This air-cooled gasoline generating set provides a dependable power solution for both professional and residential needs. Engineered for portability and efficiency, its compact design and integrated carrying handle make it ideal for remote locations, construction sites, and emergency backup power. With built-in safety features like overload protection and low oil shutdown, it ensures consistent performance and equipment longevity.

Technical Specifications

Model Designation	NG 3500DC
Cooling System	Air Cooled
Engine Type	Medium Engine

Key Features

Suitable Applications

- Home backup power
- Construction sites
- Outdoor events
- Remote locations

Safety Features

Overload Protection, Low Oil Shutdown
