

Portable Gasoline Generator

This generator is impact resistant, flexible, and provides low noise during reliable operation. It is a convenient and movable power source suitable for outdoor work, lighting, and various applications.

Product Overview

Reliable Portable Power

This portable gasoline generator serves as an ideal movable power source for diverse professional and emergency applications. Designed for flexibility and low-noise operation, it provides a reliable power supply for sectors including healthcare, communications, and outdoor fieldwork. The unit features robust construction and versatile output options, ensuring stable performance in demanding environments.

Technical Specifications

Key Features

- Low noise operation
- Voltage monitoring via V-meter
- Overload protection
- Pilot lamp indicator

AC Voltage Output	220 V
Available Outputs	AC Output, DC Output

Applications

Recommended Use Cases

Movies & Production • Electrical Work • Educational Facilities • Hospitals • Communication Infrastructure • Outdoor Working & Lighting
