

Portable Gasoline Generator

This gasoline generator is designed for portable power generation. It features a robust frame for protection and portability, along with a control panel with outlets and indicators.

Overview

Reliable Portable Power

This portable gasoline generator is engineered to provide dependable power generation for backup requirements or off-grid locations. Featuring a robust protective frame, it ensures durability while maintaining ease of transport. The integrated control panel offers intuitive access to multiple outlets and essential indicators for streamlined operation.

Technical Specifications

Fuel Type

Gasoline

Key Features

- Robust protective frame
- Portable design
- Integrated control panel
- Multiple outlet options

Model Number

SH5000DX

Primary Applications

Backup Power, Off-grid Usage, Field Work
