

Portable Gasoline Generator

This portable gasoline generator is compact and robust, designed to provide reliable power for various applications. It features a durable frame, easy start mechanism, and stable power output, making it ideal for home backup, camping, and light construction work.

Overview

Compact Portable Power

This portable gasoline generator is designed for reliability and efficiency in various applications, from home backup to light construction and camping. Featuring a robust open-frame design, it provides stable power output with a user-friendly recoil start mechanism. Its compact size and lightweight build ensure portability without compromising performance.

Performance Metrics

Rated Output Power

900 W

Rated Output

1000 W

Max Output

Electrical Specifications

Parameter	Value
Rated Frequency	50 / 60 Hz
Rated Voltage	230 V
Rated Current	3.9 A

Engine Details

Engine Type	Single cylinder, air-cooled, 4-stroke, OHV, gasoline engine
Engine Model	KG90
Rotation Speed	3000 r/min
Displacement	87
Compression Ratio	8:1

Operation & Maintenance

Starting Mode	Recoil start
Fuel Type	Automotive unleaded gasoline
Fuel Tank Volume	8 L
Recommended Lube	SAE10W30 (above CC grade)

Physical Characteristics

Structure Type

Open-frame • Permanent magnet • Digital contravariance

Noise Level

d65dB(A) @ 7m

Dry Weight

16 kg

Dimensions (L*W*H)

400*320*360 mm

Certifications

Certifications

CE, ISO 9001
