

Portable Gasoline Generator Set

This portable gasoline generator set provides reliable power in various applications. It features a robust frame for protection and portability, AVR (Automatic Voltage Regulator) for stable voltage output, and easy-to-use controls.

Overview

Reliable Portable Power

This portable gasoline generator set is engineered to deliver consistent and dependable power for a wide range of applications. Equipped with an Automatic Voltage Regulator (AVR), it ensures stable voltage output, making it safe for powering sensitive tools, appliances, and lighting equipment. Its robust frame design enhances both durability and portability, making it an ideal solution for remote job sites or as a reliable backup power source during outages.

Technical Specifications

Voltage Regulation

AVR Equipped

Model Number

SDQF1.2

Suitable Applications

Power Tools, Appliances, Lighting Equipment, Emergency Power

Design & Build

Frame Construction

Robust protective frame

Portability

Yes
