

Portable Gasoline Generator with Honda Engine

This portable gasoline generator is equipped with a Honda GX series engine, ensuring reliable power output. The generator features a robust frame for protection and includes wheels for enhanced portability and easy maneuverability.

Product Overview

Reliable Portable Power Generation

This portable gasoline generator is built for demanding mobile power applications, featuring a high-performance engine designed for consistent output. With a robust structural frame and integrated cooling systems, it ensures durability and efficiency under varying conditions. The unit is optimized for single-phase power delivery, making it a versatile choice for professional field tasks and general utility needs.

Engine Specifications

Engine Features

| Feature | Specification |
|-----------------|-----------------------------------|
| Engine Model | Honda GX160 |
| Type | OHV25°, Single Cylinder, 4 Stroke |
| Cooling System | Forced Air Cooling |
| Displacement | 160 mL |
| Starting System | Recoil Start |

Physical and Logistics

Dimensions and Weight

- Dimensions: 600 x 445 x 470 mm
- Net Weight: 42 kg
- Gross Weight: 44 kg
- 20FT Container Capacity: 225 sets

Operational Details

Operation Features

Single Phase, Automatic Voltage Regulation, 15L Fuel Capacity, 0.6L Oil Capacity
