

Portable Gasoline Water Pump with 32.6cc Displacement

This portable gasoline water pump is designed for efficient water transfer and irrigation. It features a matched engine model 1E36F-2 with a discharging capacity of 32.6cc.

Product Overview

Portable Efficiency for Water Transfer

This portable gasoline water pump is designed for high-efficiency water transfer and irrigation tasks. Featuring a 2-stroke gasoline engine, it balances lightweight portability with operational performance. It is an ideal solution for professionals requiring a compact, energy-saving tool for liquid handling.
