

# Portable Handheld Rechargeable Fan with Power Bank

This portable handheld fan is designed for personal cooling. It features a rechargeable battery and a safety grill.

## ADDITIONAL IMAGES

## Product Overview

### Dual-Function Portable Cooling and Power

This versatile device combines a portable handheld fan with an integrated power bank, making it an essential companion for travel, outdoor activities, and daily commutes. Designed for convenience, it provides both personal cooling and on-the-go charging capabilities in a single, ultra-lightweight unit. The ergonomic design ensures ease of use, while the rechargeable battery allows for reliable, cordless operation wherever you are.

## Technical Specifications

Battery Capacity	3800 mAh
Battery Chemistry	Li-Polymer
Model Identifier	PSF38
