

Portable Hanging Aroma Diffuser

This portable aroma diffuser is designed for small spaces. It utilizes a scented foam piece to diffuse aroma and purify the air within a 3m² area.

Overview

Compact design suitable for a variety of small spaces including shoe cabinets, cars, and bags.

Versatile Portable Aroma Solution

This portable hanging aroma diffuser is designed to purify and scent small spaces up to 3m². Utilizing a regular heating mechanism with scented foam pieces, it effectively refreshes air in closets, cars, and bags. Its compact teardrop design and integrated hanging strap make it an ideal choice for maintaining a pleasant environment in mobile or confined B2B applications.

Performance & Area

Effective Coverage Area

3 m²

Maximum Area

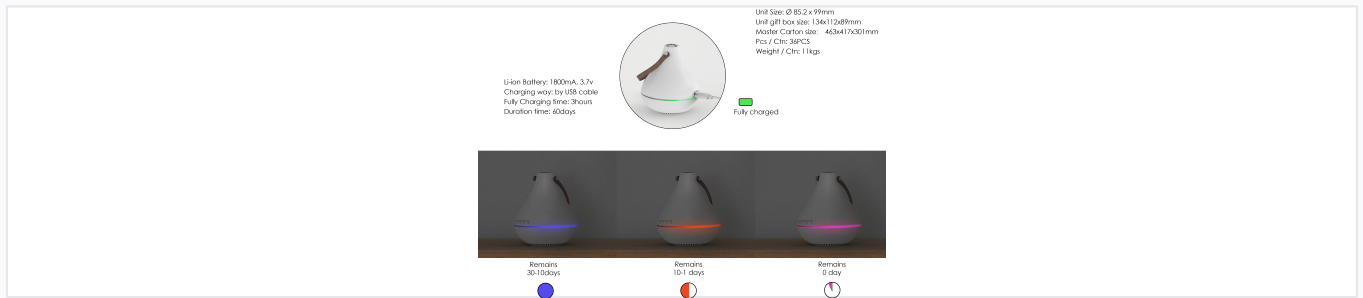

Working Principle

Regular heating of scented foam piece

Core Functions
