

Portable High-Pressure Washer with Adjustable Nozzle

This high-pressure washer is designed for efficient cleaning. It features a durable motor, adjustable nozzle for varied spray patterns, and a detergent application system.

Product Overview

High-Efficiency Cleaning Solution

This portable high-pressure washer is engineered for versatile cleaning tasks in both commercial and residential environments. It features a robust, durable motor paired with an adjustable nozzle system, allowing users to switch easily between different spray patterns to suit specific cleaning requirements. Designed for convenience and safety, the unit includes an integrated detergent application system, thermal overload protection, and an auto-stop function for extended operational life.

Technical Specifications

Model Number	BY01-VBK
Safety Features	Thermal Overload Protection, Auto-Stop Function

Design & Portability

Mobility

- Compact design for easy storage
- Integrated wheels for portability

Cleaning System

Adjustable Spray Nozzle • Detergent Application System
