

Portable Inverter Generator

This compact and lightweight inverter generator is designed for portable power needs. It features a fuel-efficient engine that delivers clean, stable power suitable for sensitive electronic devices.

Overview

Portable Power Solution

This portable inverter generator is engineered to provide clean, stable power suitable for sensitive electronic devices. Featuring a 4-stroke, air-cooled gasoline engine, it offers a balance of efficiency and performance with a rated output of 1600W. Designed for versatility, it includes advanced features like circuit protection and LED indicators, making it an ideal choice for reliable backup power or outdoor applications.

Engine Specifications

Engine Configuration

Feature	Specification
Engine Model	JF148FEH-2
Type	Single Cylinder, 4-stroke, Horizontal, Air-Cooled
Displacement	80 cc
Start Mode	Recoil Start

Fuel System

- Fuel Type: Automotive unleaded gasoline
- Tank Capacity: 3.9 L
- Fuel Consumption: 348 g/kwh
- Run time at 1/2 load: 7.6 hrs

Electrical & Connectivity

Voltage / Frequency	120V 60Hz, 230V 50Hz
Rated Current	13.3A / 6.96A
DC Rated Output	12V / 8A

Safety & Features

Safety & Indicators

Circuit Protection • LED Lamps • Air-Cooled

Physical Dimensions

Weight & Size

- Net Weight: 21.5 kg
- Gross Weight: 23.5 kg
- Package Dimensions: 540 x 310 x 490 mm
