

Portable Jump Starter with Air Compressor

This portable power station jump-starts vehicles and provides auxiliary power. It has a built-in air compressor with a pressure gauge for inflating tires and includes DC 12V sockets and work lights.

Overview

Versatile 4-in-1 Power Station

This portable power station serves as a comprehensive solution for roadside emergencies and auxiliary power needs. It combines a robust jump starter with a high-pressure air compressor, a bright LED worklight, and multiple power outputs including USB and DC sockets. Designed for reliability, the unit features built-in safety mechanisms such as overload and overcharging protection, ensuring safe operation for professional and personal use.

Power & Performance

Battery Specifications

12 V

Voltage

10 Ah

Capacity

Charging Input

220-240V~50/60Hz

Integrated Tools

Power Output Ports

Port Type	Quantity
DC 12V Socket	1
USB 5V Port	1

Air Compressor Pressure

100 PSI

LED Worklight

18 pcs

Safety & Indicators

Safety Features

Overload Protection, Overcharging Protection, Reverse Polarity Indicator, Safety Switch
