

Portable LED Emergency Lantern with Spotlight

This portable LED lantern is designed for emergency and security lighting applications. It features a durable construction, a carrying handle, and a spotlight.

Overview

Versatile Emergency Lighting

The TK-06T portable emergency lantern is engineered for reliable performance in critical situations. Featuring dual 6W fluorescent tubes with 360-degree light distribution and an integrated bottom torch, it provides comprehensive area illumination. Built-in overcharge and overdischarge protection ensures battery longevity, while the automatic emergency light-up feature offers peace of mind during power failures.
