Overview

High-Performance Portable Illumination

This portable balloon flood tower light is engineered for versatility and durability, featuring a robust nylon 66 shell with advanced thermal management. Designed to deliver soft, glare-free, and flicker-free 360° illumination, it provides wide-area coverage suitable for construction sites, events, and emergency operations. With an energy-efficient design and a lifespan of up to 50,000 hours, it offers a reliable, high-output alternative to traditional HID lighting solutions.

Technical Specifications

Luminous Efficacy

100 Lm/W
Output

Power Range	600 W
Average Lifespan	50000 hours
Supported Input Voltages	AC 120V, AC 230V, DC 24V

Design & Features

Mounting Options

- Tripod
- Trolley
- Lighting Tower

Dimming Available	Yes
Housing Material	Nylon 66
