Product Overview

Versatile Emergency Lighting & Utility

This series of portable, rechargeable devices offers essential utility for both emergency situations and outdoor use. Combining features such as LED illumination, multi-speed fans, and integrated audio capabilities, these units are designed for reliability during power outages or camping trips. With dual AC/DC power operation and rechargeable lead-acid battery systems, they provide flexible, long-lasting performance in a compact, easy-to-carry form factor.

Technical Specifications

Power Source	AC Operated, DC Operated, Rechargeable
Battery Type	Sealed Lead-acid Battery

Model Comparison

Model Specifications
