

Portable Magnetic Drill Press

This portable magnetic drill press is designed for drilling large diameter holes in steel. It features a robust motor, a high-strength magnetic base, and a user-friendly control panel.

Overview

Professional Magnetic Drilling Solution

This portable magnetic drill press is engineered for high-performance drilling in steel, making it an essential tool for construction, fabrication, and industrial maintenance. It combines a robust motor with a high-strength magnetic base to ensure stable, accurate hole creation even in demanding environments. Designed with user safety and longevity in mind, the unit features an integrated cooling system to optimize bit life and overload protection for secure operation.

Technical Specifications

Drilling Capacity	25 mm
Key Features	Portable Design, High-Strength Magnetic Base, Integrated Cooling System, Overload Protection

Performance Metrics

Performance Highlights

25 mm

Max Drilling Capacity

Applications

Primary Applications

- Steel Construction
- Metal Fabrication
- Industrial Maintenance
