

Portable Magnetic Drill Press

This portable magnetic drill press is designed for on-site metalworking, offering a powerful drilling solution. It features a strong magnetic base for secure attachment to ferrous surfaces and variable speed control for adapting to different materials.

Overview

Industrial Magnetic Drilling Solution

This portable magnetic drill press is engineered for heavy-duty metalworking in demanding environments such as construction, bridge building, and shipbuilding. It features a high-power motor with constant power soft-starting and infinitely variable speed control for precise drilling on horizontal, vertical, and overhead steel surfaces. Designed for efficiency, this unit provides a reliable alternative to stationary boring machines or manual hand drills when working on large, immovable steel workpieces.

Technical Specifications

Arbor Size	MT2
Max Drilling Diameter	23 mm
Tapping Capacity	M22
Speed Regulation	Electric stepless speed-regulation

Features

Included Accessories

- Magnetic drill unit
- Allen wrenches
- Instruction manual
- Safety belt
- Plastic carry case

Key Capabilities

High Adhesion, Overload Protection, Constant Power, Soft-Starting, Variable Speed

Application

Suitable Industries

Building Construction • Bridge Building • Boiler Manufacturing • Shipbuilding
