

Portable Magnetic Drill Press

This portable magnetic drill press is designed for drilling large holes in steel. It features a powerful motor, strong magnetic base for secure attachment to ferrous surfaces, and a coolant system for efficient drilling.

Product Overview

High-Performance Portable Magnetic Drill

This portable magnetic drill press is engineered for precision and power in heavy-duty metal fabrication environments. Featuring a robust 1850W motor and an impressive 18000N of magnetic adhesion, it ensures secure and stable drilling on ferrous surfaces. Designed for versatility, it supports hole cutting up to 75mm and includes reversible rotation for tapping applications, making it an essential tool for construction and maintenance professionals.

Technical Specifications

Power & Performance

1850 W

Motor Power

18000 N

Magnetic Adhesion

Voltage Compatibility

230V/50Hz • 120V/60Hz

Capacity Details

Operation	Capacity
Hole Cutting (Diameter x Depth)	75mm x 75mm
Twist Drilling	2.5 – 16mm
Tapping	M20

Mechanical Details

No Load RPM

- 260
- 460

Tool Holder Sizes

19.05mm (3/4"), 32mm (1-1/4")

Stroke

210 mm

Physical Properties

Net Weight

21 kg

Reversible Rotation

Yes
