

Portable Magnetic Drill Press

This portable magnetic drill press is designed for drilling large holes in steel. It features a powerful motor, a high-strength magnetic base for secure attachment to metal surfaces, and a coolant system for efficient drilling.

Overview

High-Performance Magnetic Drilling

This portable magnetic drill press is engineered for precision and power in heavy-duty metal fabrication and construction environments. Featuring a robust 1650W motor and an impressive 16500N magnetic adhesion, it ensures secure, stable drilling on steel surfaces. With a dual-speed no-load capability and an integrated coolant system, this tool is designed to maximize efficiency and prolong cutter life during demanding on-site applications.

Technical Specifications

Rated Power	1650 W
Magnetic Adhesion	16500 N
Max Annular Cutter Diameter	50 mm
Cutting Depth	45 mm
Stroke Length	230 mm
No-load Speed	280/510 RPM
Voltage Options	110V, 220V, 230V, 240V
Frequency	50-60 Hz

Logistics

Weight Specifications

14.8 kg

Net Weight

17.8 kg

Gross Weight

Package Dimensions

58 x 38 x 18 cm
