

## Portable Mechanical Lock Safe Box

This portable safe box is designed for securing small firearms and valuables. It features a mechanical combination lock for keyless access and enhanced security.

### ADDITIONAL IMAGES

### Product Overview

#### Compact Portable Security

This portable safe box provides a secure solution for storing handguns, sensitive documents, and small valuables such as jewelry or cash. Designed with a durable steel exterior and a foam-lined interior, it protects belongings from damage and unauthorized access. Its slim-line construction allows for convenient placement under vehicle seats, in briefcases, or luggage, making it an ideal choice for travel and concealed carry permit holders.
