

Portable Medical Cooler Box

This durable and lightweight portable cooler box is designed for medical use. It is ideal for transporting temperature-sensitive medications, vaccines, or samples while maintaining a consistent internal temperature.

Product Overview

Professional Medical Cooling Solution

This portable cooler box is engineered specifically for the secure transport of temperature-sensitive medical supplies, including vaccines, medications, and biological samples. Constructed from high-quality, impact-resistant plastic, it ensures durability and protection during transit. Its lightweight design and ergonomic handle make it an ideal choice for healthcare professionals and field workers requiring reliable temperature control on the go.

Physical Characteristics

Durability

Impact-Resistant • Lightweight

Material

High-quality impact-resistant plastic

Usage & Application

Suitable For

- Healthcare professionals
- Field medical workers

Primary Applications

Vaccine Transport, Medical Samples, Temperature-Sensitive Medication
