

# Portable MIG Welding Machine

Compact and portable MIG welding machine designed for light to medium-duty welding applications. It features adjustable voltage and wire feed speed for optimal welding performance.

## ADDITIONAL IMAGES

## Product Overview

### Compact MIG Welding Solution

This portable MIG welding machine is specifically designed for light to medium-duty welding tasks, making it a reliable tool for DIY projects, automotive repairs, and light fabrication work. It features adjustable voltage and wire feed speed controls to ensure optimal performance across different welding jobs. Built with safety in mind, the unit includes thermal overload protection to prevent overheating during operation.

## Technical Capabilities

### Key Features

- Adjustable voltage control
- Adjustable wire feed speed
- Built-in thermal overload protection
- Compact and portable design

### Compatible Materials

Mild Steel, Stainless Steel, Aluminum

## Performance Metrics

### Model Series

MIG-105S • 135S
