

# Portable MIG Welding Machine

This compact and portable MIG welding machine is suitable for light to medium-duty welding applications. It features adjustable welding parameters, thermal overload protection, and compatibility with various welding wires.

## Overview

### Versatile Portable MIG Welder

This portable MIG welding machine is designed for efficiency and ease of use in light to medium-duty applications. It supports both gas and gasless welding modes, making it adaptable to a wide range of working materials. Engineered for durability and operator safety, the unit features fan cooling, thermal overload protection, and precise wire feed speed control.

## Operational Features

### Safety Features

Thermal Protection

### Welding Modes

Gas, Gasless

### Voltage Control

4 steps

### Cooling System

Fan Cooled

### Portability

Yes

## Included Accessories

### Included Items

- Integral MIG Torch
- Earth clamp
- Welding helmet
- Brush and hammer
- Welding cable
- Contact tips
- Carton box
