

Portable MMA Welding Machine with IGBT Technology

This MMA welding machine is a portable and efficient tool suitable for diverse welding tasks. It incorporates IGBT technology to deliver stable and reliable performance.

Product Overview

Professional Performance

The ZX7-250M is a high-efficiency, portable MMA welding machine engineered for demanding industrial environments including petrol-chemical plants and heavy pressure works. Utilizing advanced IGBT technology, it ensures stable and reliable performance alongside easy arc ignition for superior welding seam formation. Designed with high-standard engineering principles, this unit delivers consistent, precise results required by professional fabricators.

Technical Specifications

Model	ZX7-250M
Welding Technology	IGBT
Welding Process	DC MOS MMA

Compliance & Certification

Compliance Standards

- EN 60974-1:2012
- EN 50445:2008
- EN 60974-10:2014
- EN 61000-3-11:2000
- EN 61000-3-12:2011

Quality Management System

ISO 9001:2015

CE Directives

2014/35/EU (Low Voltage), 2014/30/EU (Electromagnetic Compatibility)
