

Portable MMA Welding Machine

This is a portable welding machine designed for MMA (Manual Metal Arc) welding. The compact and lightweight design allows for easy transportation and storage.

Overview

Portable MMA Welding Solution

This portable welding machine is specifically designed for Manual Metal Arc (MMA) welding applications. Its compact and lightweight architecture ensures easy transportation and storage, making it a practical choice for on-site maintenance work and light fabrication tasks. Equipped with adjustable current control and thermal overload protection, it offers both precision and safety for various welding projects.

Technical Specifications

Welding Process	MMA (Manual Metal Arc)
Model Identifier	MMA-130

Features

Key Features

- Adjustable current control
- Thermal overload protection
- Portable and lightweight design

Application

Application Suitability

Light-duty • Medium-duty

Ideal For	DIY Enthusiasts, Maintenance Workers, Light Fabrication
