

# Portable Moxibustion Therapy Device with Herbal Extracts

This portable device combines moxibustion therapy with herbal ingredients. The rechargeable instrument heats the herbal extracts to release a soothing fragrance, promoting relaxation.

## Product Overview

A modern, portable solution for traditional wellness, featuring smart temperature control and natural herbal extracts.

## Modern Moxibustion Therapy

This portable moxibustion instrument offers a modern, smoke-free approach to traditional wellness. By combining advanced heating technology with natural herbal extracts, it provides targeted heat therapy that promotes relaxation and improves sleep quality. The compact, battery-powered design ensures you can enjoy the benefits of moxibustion therapy conveniently at home or on the go.
