

Portable MP3 Player with FM Radio

This portable MP3 player supports TF card playback and FM radio. It has a Hi-Fi speaker, stereo earphone jack, and optional detachable lithium battery.

Overview

Compact Audio Solution

This portable MP3 player is designed for versatile audio playback, featuring both TF card support and an integrated FM radio with auto-scan capabilities. It delivers high-fidelity sound through a built-in bass speaker and offers a dedicated stereo earphone jack for private listening. With its compact form factor and customizable surface area, it serves as an excellent promotional item or personal audio device.
