

Portable Multi-Speed Box Fan

This portable box fan circulates air in residential or commercial spaces. It has multiple speed settings for customized airflow and is suitable for floor or tabletop placement.

Product Overview

Portable Multi-Speed Box Fan

This portable box fan is engineered for efficient air circulation in both residential and commercial environments. Featuring a robust full copper motor and a 3-speed wind setting, it delivers reliable performance and strong airflow. Its versatile design includes a large pitch angle adjustment, making it an ideal cooling solution for floor or tabletop placement.

Technical Specifications

Model	BF-50B
Power Consumption	65 W
Motor Type	Full copper motor
Speed Settings	3

Features

Adjustability	Large pitch angle adjustment
