Overview

Versatile Portable PA Solution

This high-fidelity portable PA system is designed for professional audio delivery in any environment, featuring a robust wooden enclosure and integrated trolley for maximum mobility. With a powerful 120W output and a multi-driver configuration including a 10-inch subwoofer, it delivers clear, full-range sound for events, karaoke, and public addresses. The system offers comprehensive connectivity including Bluetooth 4.2, USB, SD, and dedicated inputs for microphones and guitars, powered by a high-capacity rechargeable battery for reliable outdoor performance.
