Overview

Versatile Portable PA Solution

This portable PA speaker is designed for flexible audio performance, featuring wireless Bluetooth 5.0 connectivity and multi-format playback support via USB and TF card slots. It includes a built-in 15W Hi-Fi amplifier system and a rechargeable 3600mA battery, making it suitable for mobile use. With integrated LED lighting and dedicated microphone inputs, it serves as an excellent all-in-one solution for public address, karaoke, and event audio.

Audio Performance

Output Power

15 W

RMS Power
