

Portable Power Bank for Mobile Devices

This portable power bank efficiently supplies power to digital devices. It features intelligent control with microcomputer monitoring, a power display, and simplified one-button operation for ease of use.

Product Overview

Intelligent Portable Power Solution

This portable power bank offers a compact and intelligent solution for charging a wide range of digital devices on the go. Featuring microcomputer monitoring and a convenient one-touch shuttle operation, it simplifies power management for users. With its efficient lithium battery and universal compatibility, it is an ideal emergency charging tool for smartphones, tablets, and other mobile electronics.

Technical Specifications

Battery Capacity	1700 mAh
Output Voltage	5 V
Output Current	1000 mA
Conversion Efficiency	80-85%

Performance & Usage

Charging Durations

90 min

Charge Time (Phone)

2 hours

Recharge Time (Power Bank)

Features & Compatibility

Key Features

- Microcomputer intelligent monitoring
- LED power display
- One-touch shuttle operation
- Includes multiple phone brand connectors

Compatible Devices

Mobile Phones, PSP, MP3/MP4 Players, GPS, Bluetooth Devices, Digital Cameras, iPod, iPad
