

Portable Power Bank with LED Indicator

Portable power storage devices designed for charging various electronics. These power banks feature LED indicators to display the remaining battery level and are available in multiple colors.

Overview

Compact Power Solution

This ultra-slim portable power bank is designed for maximum convenience, making it an ideal companion for charging smartphones, handheld gaming consoles, e-readers, and cameras on the go. Engineered with safety as a priority, it features comprehensive protection circuits to prevent over-charging, over-voltage, and short circuits. Its sleek, lightweight design ensures it fits easily into pockets or bags, providing reliable power whenever you need it.

Technical Specifications

Battery Capacity

2200 mAh

Capacity

Battery Chemistry	Li-polymer
Input Current	800 mA
