

Portable Power Bank with LED Indicators

This portable power bank provides high-capacity power for on-the-go use. Its attractive design incorporates LED indicators to display the battery level.

Product Overview

Compact Portable Power Solution

This portable power bank offers a reliable 5200mAh capacity in a sleek, lightweight design, making it an ideal companion for mobile professionals and travelers. Engineered with smart power management, it ensures safe and efficient charging for a wide range of USB-powered devices, including smartphones and tablets. Its durable lithium-ion battery supports up to 500 charge cycles, providing long-term value and consistent performance.

Technical Specifications

Battery Capacity

5200 mAh

Capacity

Cell Type: Lithium-ion

Cycle Life: 500 cycles

Physical Dimensions

Weight: 165 g

Dimensions: 95 x 45.5 x 21 mm

Power Output

Output Voltage: 5 V

Max Output Current: 1000 mA

Features

Key Advantages

- Smart power management
- Wide device compatibility
- Fashionable design
- High cost-effectiveness

Compatibility: iPhone, iPod, USB Devices
