

Portable Power Generator

This portable generator is designed for various power supply needs. It features a robust frame for protection and portability, indicator lights and controls for monitoring performance, and a cooling system to prevent overheating.

Overview

Reliable Portable Power Solution

This portable power generator is engineered to provide consistent and reliable electricity for professional and residential needs. Featuring an open-frame design for enhanced portability and cooling, it is capable of delivering up to 3200W of maximum output power. With its efficient air-cooled engine and compact dimensions, it serves as an ideal power source for remote locations or emergency backup situations.

Performance Metrics

Rated Output Power

3000 W

Rated Output

3200 W

Max Output

Electrical Specifications

Parameter	Value
Rated Voltage	230 V
Rated Current	13.04 A
Rated Frequency	50 / 60 Hz

Engine Specifications

Engine Configuration

- Model: KG200
- Type: Single cylinder, 4-stroke, OHV, air-cooled
- Displacement: 196 L
- Compression Ratio: 8.5:1
- Rated Rotation Speed: 3000 r/min

Fuel Type

Automotive Unleaded Gasoline

Physical Dimensions

Dimensions & Weight

- Dimensions (L*W*H): 450*350*400 mm
- Dry Weight: 26 kg

Operational Features

Noise Level	65 dB(A)@7m
Starting Mode	Recoil start, Electric start
