

Portable Power Station with Wireless Charging

This portable power station provides power for various electronic devices. It is designed for outdoor activities, emergency situations, and mobile power needs.

Overview

High-Capacity Portable Power Solution

This portable power station is designed to provide reliable, high-capacity energy for outdoor activities, emergency backup, and mobile power requirements. With a 1500W rated power output and a 1536Wh capacity, it handles demanding appliances with a pure sine wave output to protect sensitive electronics. The unit features versatile charging options, including wireless charging, multiple USB ports, and AC/DC outputs, ensuring compatibility with a wide range of devices.

Performance

Rated Power

1500 W

Rated Power

1536 Wh

Rated Capacity

Overload Protection

1580 W

Outputs

Output Ports & Capabilities

Port Type	Specification
AC Output	110V/60Hz or 220V/50Hz (Sine Wave)
USB Output	QC3.0 / 18W
Type-C Output	PD45W
Cigarette Lighter	12V/10A
DC 5521	12V/5A

Inputs & Charging

Charging Inputs

- AC Input (110V/60Hz or 220V/50Hz)
- PV Input (Solar Supported)

Physical Characteristics

Dimensions	400 x 270 x 270 mm
Net Weight	15 kg
Operating Temperature	-10 to 40 °C

Accessories

Included Accessories

Charger, PV Adapter, Car Charger
