

Portable Rechargeable Electric Fan with LED Light

This portable electric fan features an integrated LED light. It has adjustable fan speed and light intensity and is powered by a rechargeable battery.

Product Overview

Versatile Portable Cooling and Lighting

This multifunctional portable electric fan is designed for both indoor and outdoor environments, providing a reliable cooling solution with integrated illumination. Equipped with a rechargeable battery, it offers adjustable fan speeds and light intensity to suit various needs, from office workspaces to camping trips. Its compact and lightweight construction ensures easy transport and placement wherever airflow and light are required.

Performance Metrics

Operational Modes

- Fan (Low Speed)
- Fan (Multi-speed)
- Lamp (Lighting)

Key Features

Rechargeable, Adjustable Speed, Integrated LED Light, Portable Design

Technical Specifications

Suitable Environments

Home • Office • Outdoor

Model Identifier

LW-SA

Power Source

Rechargeable Battery
