

Portable Rechargeable Oil-Free Air Compressor

This oil-free air compressor is designed for portable applications. It features a rechargeable AC-DC power system and a digital display for monitoring pressure.

Product Overview

Portable Oil-Free Performance

This portable, oil-free air compressor is engineered for versatility and clean air delivery in diverse environments. Featuring a dual AC/DC rechargeable power system, it offers seamless operation whether connected to mains power or running on battery. Its compact, lightweight design with an integrated handle ensures easy transport, while the digital interface allows for precise pressure monitoring and adjustment.

Performance Metrics

Power Output

0.75 kW
Rated Power

Air Delivery

105 L/M
Flow Rate

Max Pressure

0.8 MPa
Pressure

Technical Specifications

Voltage Compatibility	120V AC, 220V AC, 60V DC
Operating Noise	70 dB
IP Grade	IP25
Outlet Temperature	<88°C

Physical Dimensions

Net Weight	15 kg
Dimensions (LxWxH)	420 x 180 x 460 mm
