Product Overview

Professional Vacuum Blending Technology

This portable vacuum blender is engineered to minimize oxidation, ensuring your juices and smoothies retain their natural flavor, color, and nutritional profile. Utilizing a powerful 22000 RPM motor and a high-efficiency vacuum pumping system, it creates smooth textures without frothing or layering. Designed for versatility and safety, it features BPA-free Tritan material suitable for infant food and on-the-go nutrition.

Technical Specifications

Motor Speed	22000 rpm
Vacuum Pressure	60 kpa
Battery Capacity	1400 mAh
Blade Construction	Four-leaf stainless steel
Material Standards	BPA-Free, Tritan, Food-Safe

Features & Compatibility

Multi-Purpose Applications

- Fresh fruit juice blending
- Infant auxiliary food preparation
- Grinding
- Beauty slime mixing
- Vacuum food preservation (boxes/bags)

Key Benefits

Anti-Oxidation • Leak-Resistant • Rechargeable • Portable
