

Portable Semiconductor Alcohol Tester

This is a compact alcohol tester with a keychain attachment for easy portability. It uses a semiconductor alcohol sensor to provide quick and accurate blood alcohol content (BAC) readings.

Product Overview

Compact Alcohol Detection

This portable semiconductor alcohol tester is designed for quick, on-the-go blood alcohol content (BAC) monitoring. Featuring a compact form factor with a convenient keychain attachment, it is ideal for personal use. The device provides immediate feedback through a simple LED indicator system, allowing users to quickly assess alcohol status based on pre-set safety thresholds.

Technical Specifications

Warm-up Time	10 s
Power Source	2 x AAA Batteries
Dimensions	73mm x 39mm x 20mm
Item Number	LD007-AD1

Safety Thresholds

Status Indicators

Status	BAC Range	BRAC Range
Safety	< 0.02%	< 0.1 mg/L
Caution	0.02% - 0.05%	0.1 - 0.25 mg/L
Danger	> 0.05%	> 0.25 mg/L
