

Portable Solar LED Flood Light

This portable solar LED flood light provides bright illumination. It features a high-intensity LED array, integrated solar panel, and adjustable stand, and is rated IP65 for water resistance.

Product Overview

Professional Portable Solar Lighting

This high-efficiency portable solar LED flood light is designed for reliable outdoor illumination in demanding environments. Featuring a durable die-casting aluminum shell and IP67 waterproof rating, it is built to withstand harsh weather conditions including thunder. The unit offers smart charging capabilities, reaching full capacity in just 4-5 hours of peak sunlight, and provides up to 12 hours of continuous lighting.
