

Portable Solar Power Generator

This solar generator efficiently converts and stores solar energy. It features a battery management system and multiple output ports.

Product Overview

Crystal Steel Shield Series

The Crystal Steel Shield series represents a robust solution for off-grid energy needs. Designed with high-performance components, this solar generator ensures efficient energy conversion and reliable storage. It is engineered for durability and versatility, making it an ideal choice for both professional emergency backup requirements and remote field operations.

Key Capabilities

- Advanced battery management system
- Multiple output ports for versatile device connectivity
- Durable construction for outdoor reliability
- High-efficiency energy conversion

Application

Primary Applications

Off-grid Power, Emergency Backup, Outdoor Operations
