

Portable Solar Powered Lantern

This solar lantern provides portable lighting powered by solar energy. It features integrated solar panels for charging, making it suitable for both indoor and outdoor use.

Product Overview

Portable Solar Powered Lantern

This portable solar-powered lantern is a versatile lighting solution designed to operate without external power sources. Utilizing integrated solar panels, it effectively converts sunlight into energy, making it a reliable tool for off-grid lighting needs. Its durable design ensures suitability for a wide range of environments, including camping trips, household use, and emergency preparedness.

Technical Specifications

Model Number	PS-L061
Power Source	Integrated Solar Panels

Usage & Applications

Ideal Use Cases	Camping, Emergency Lighting, Off-grid, Indoor, Outdoor
-----------------	--

Product Features

Key Benefits

- Solar-powered operation
- Portable and lightweight design
- No external power source required
- Versatile for indoor and outdoor environments
