

Portable Speaker with Dual 6.5-inch Drivers

This portable speaker is equipped with dual 6.5-inch drivers to provide a robust audio experience. It features integrated lighting effects and multiple connectivity options including Bluetooth, USB, and AUX inputs.

Product Overview

Portable Audio Solution

This portable speaker system is engineered with dual 6.5-inch full-range drivers, delivering a robust 20W of total output power. Designed for versatility, it supports multiple playback sources including Bluetooth, USB, and TF cards, while offering integrated features like FM radio and microphone inputs. With built-in LED lighting effects and a rechargeable battery, it serves as an excellent all-in-one audio solution for both indoor and outdoor environments.
