

Portable Stick Welding Machine

This is a compact and portable MMA welding machine suitable for diverse welding applications. It features adjustable amperage control, a digital display, and IGBT inverter technology for stable, efficient performance.

Product Overview

High-Efficiency Portable MMA Welding

The ZX7-120 is a professional-grade, portable MMA welding machine designed for high-performance DC manual metal arc welding. Engineered with single-board technology, it ensures superior efficiency and excellent arc ignition for high-quality seam formation. It is specifically suited for demanding industrial environments, including pressure vessel fabrication and petrochemical plant maintenance.

Technical Specifications

Model	ZX7-120
Welding Method	DC MMA
Key Features	High Efficiency, Single Board Design, Stable Arc Ignition, DC Inverter

Compliance and Standards

Certifications

CE Certified • Low Voltage Directive • Electromagnetic Compatibility

Standards Met

- EN 60974-1:2012
- EN 50445:2008
- EN 60974-10:2014
- EN 61000-3-11:2000
- EN 61000-3-12:2011
